

● DIGITAL ENGINEERING STUDIO

PROJECT QUOTATION

Unified cross-platform Android & iOS applications, a custom web ecosystem (frontend & backend), and custom visual design systems created in-house from modern industry visual benchmarks.

ISSUED BY

AXORAA LABS

info.axoraa@gmail.com

Bengaluru, KA, India

PREPARED FOR

Prospective Partner

OFFERED PROJECT VALUE

₹90,000 INR (In-House Design & Dev)

01 // DELIVERABLES BRIEF

ENGINEERING SCOPE MATRIX

MOBILE APP SPRINTS (ANDROID & IOS APP FRONTEND)

Complete frontend and backend codebases for both Android and iOS apps. Supports 3 release versions, localized translations, messaging webhooks, and secure payment integrations.

WEBSITE ECOSYSTEM (FRONTEND & BACKEND)

React/Next.js dynamic website with visual layouts, responsive mobile grids, full frontend rendering and connected backend systems.

RELATIONAL DATABASE & S3 STORAGE

Unified backend database setup using robust relational tables, security policies, and AWS S3 storage buckets configuration.

2 BACKEND CLOUD SERVER INSTANCES

Configuration of 2 secure backend cloud server instances, architecture load-optimization, and global deployment lines setup.

02 // CO-RESPONSIBILITY SPLIT

AXORAA RESPONSIBILITY

We manage the entire frontend servers, compile release AAB/IPA packages, integrate systems, deploy staging panels, and verify stores.

CLIENT RESPONSIBILITY

Client manages the cloud server and database infrastructure costs directly, and pays Google/Apple store developer account registration fees.

03 // PRICING ESTIMATE

COMMERCIAL PROPOSAL SUMMARY

One-time design and engineering investment, replacing recurring SaaS subscriptions or high continuous staff overhead.

ANDROID & IOS APP

Frontend & Backend code for both OS platforms.

~~₹1,20,000~~

₹65,000

CUSTOM WEBSITE

Responsive React/Next.js environment.

~~₹35,000~~

₹15,000

VISUAL DESIGN

In-house visual design mapping elite industry benchmarks.

~~₹25,000~~

₹10,000

TOTAL INVESTMENT VALUE

~~₹1,00,000~~ INR

₹90,000 INR

Bespoke high-performance frontend engineering and optimized backend databases, built to drive lifetime business returns.

04 // LINE ITEM COMPILER

DETAILED VALUATION TABLE

ENGINEERING COMPONENT / SCOPE DESCRIPTION	STANDARD RATE	AXORAA RATE
Mobile App Sprints (Android & iOS App Frontend)	₹75,000	₹40,000
App Backend & API Engine Consumptions	₹45,000	₹25,000
Custom React/Next.js Website Sprints (Frontend & Backend)	₹35,000	₹15,000
Custom UI/UX Designing & Prototyping System (Figma)	₹25,000	₹10,000
Relational Database setup, Schemas & S3 Storage Config	₹15,000	₹0 (Included)
2 Backend server instances setup & Cloud configuration	₹15,000	₹0 (Included)
Architecture Optimisation & Frontend Performance tunings	₹10,000	₹0 (Included)
App integrations (Payment Gateway, messaging Webhooks, Translation)	₹25,000	₹0 (Included)
SEO & App Store Optimisation (ASO) Setup	₹15,000	₹0 (Included)
Testing, Quality Checks, Deployments & Store Verification	₹15,000	₹0 (Included)
Post-launch SLA Maintenance (1 Year SLA)	₹30,000	₹0 (Included)
App Core Releases (V1, V2, V3 releases setup)	₹20,000	₹0 (Included)
TOTAL OFFERED VALUATION	₹3,25,000	₹90,000

05 // ROADMAP PIPELINE

DEVELOPMENT TIMELINE

App and website sprints proceed concurrently in parallel paths to ensure launch schedules. Total duration: 2 - 3 months.

01

UI/UX DESIGN

1 - 2 weeks

Custom layout styling, assets prototyping, and high-fidelity layouts system freeze. Styled by developer team matching elite industry design guidelines.

02

WEBSITE (FRONTEND & BACKEND)

2 weeks

React/Next.js frontend assembly, database schemas connection, S3 file storage setups. Runs parallel to App.

03

APP DEVELOPMENT (FRONTEND & BACKEND)

1 month 15 days

Cross-platform build logic, integration of payment portal, webhooks, localization engines, testing, and store submissions.

04

FINAL DEPLOYMENTS & VERSION SPRINTS

1 week (V1 Live)

Website & App V1 deployment (1 week). Version 2 will follow in next 2 weeks. Version 3 in next 2 weeks.

06 // POLICIES & LEGAL

SCOPE MANAGEMENT RULES

01 // FULL CODE & ACCESS OWNERSHIP

We transfer 100% intellectual property ownership of the complete codebase to the client upon final milestone payment. You will receive complete Git source repository access, server host configurations, deployment dashboard logins, and secure access credentials. We keep no licenses and charge no licensing fees.

02 // TWEAKS & CUSTOMIZATION LIMITS

To prevent scope creep and maintain the launch schedules, the project is governed by the following tweak policies:

- **Medium-Level Tweaks (Included):** Minor layout shifts, textual changes, button configurations, color switches, and font swaps are handled up to a maximum limit of 15 adjustments during active sprints.
- **Advanced-Level Customizations (Capped):** Major changes to architectural design, changing third-party system dependencies, or rewritten databases are capped at 20-30% of the initial codebase. Anything exceeding this threshold will require a separate change order assessment.

03 // COMMERCIAL & TERMS SLA

- **Payment Schedule:** Advance 20%, Next mid development 30%, After testing and final delivery 50%.
- **Infrastructure Bills:** Client is billed directly by cloud host providers (AWS/Vercel/Supabase). We maintain frontend deployments but database fees remain client's direct cost.
- **App Store approvals:** Store reviews depend on Google/Apple queue velocity. We assist in resolving review issues, but timeline estimates exclude store queue wait times.

LEGAL FRAMEWORK

Comprehensive terms governing the engagement between Axoraa and the Client. Acceptance of this quotation constitutes acceptance of all terms below.

1. Scope Freeze & Finality: The scope of work is strictly limited to the deliverables listed in this quotation document. Once the project commences, no additional features, pages, screens, modules, or functionality changes beyond the agreed scope shall be undertaken unless a separate Change Request (CR) is raised, documented in writing, and priced independently by Axoraa.

2. Post-Delivery — Zero Obligation: Once the final deliverables have been deployed, handed over, and the project is marked as "Delivered & Closed," Axoraa shall handle absolutely no obligation to perform any additional modifications, enhancements, redesigns, bug fixes (arising from client-side changes or third-party updates), content updates, or unpaid support. Any work requested after the formal delivery closure will be treated as a completely new engagement and quoted separately at prevailing market rates.

3. Payment Structure — Three Installments: The payment schedule consists of Installment 1 (20% Advance), Installment 2 (30% Mid-Development), and Installment 3 (50% post-delivery after testing and final delivery).

4. Non-Refundable Payments: All milestone payments are strictly non-refundable once a milestone phase has been initiated. Partial work completed under any milestone phase is billable in full. No exceptions.

5. Late Payment Penalty & Work Suspension: A late fee of 2% per week (compounding) shall be applied on any overdue payment after a 7-business-day grace period. Axoraa reserves the unilateral right to halt all active development, revoke staging/preview access, and suspend all deliverables until outstanding payments are cleared in full. Project timelines will be extended accordingly.

6. Client-Caused Delays: Estimated project timelines are contingent upon timely receipt of all payments, content, brand assets, media files, credentials, feedback, and written approvals from the Client. Delays caused by the Client — including but not limited to delayed responses, content unavailability, or indecisiveness — shall automatically extend the project deadline by an equivalent duration without any liability or penalty to Axoraa.

7. Client Material Obligations: The Client is responsible for providing all required content (text copy, images, logos, branding guidelines, domain credentials, hosting access, API keys, and app store accounts) within 5 business days of each written request by Axoraa.

8. Intellectual Property — Conditional Transfer: Full ownership of the source code, design assets, and all project deliverables is transferred to the Client only upon receipt of the final payment (Installment 3). Until complete payment is received, all intellectual property, code repositories, design files, and deployment configurations remain the exclusive property of Axoraa. Third-party open-source licenses (fonts, libraries, frameworks) remain subject to their own respective license terms.

9. Third-Party Service Costs: Costs for all third-party services — including but not limited to domain registration, hosting subscriptions, SSL certificates, email services, premium plugins/APIs, cloud database fees, Apple Developer Program (\$99/year), Google Play Console (\$25 one-time), push notification services, and analytics platforms — are not included in this quotation and shall be borne entirely by the Client.

10. Confidentiality & NDA: Both parties agree to keep all project information, business data, technical documentation, source code, trade secrets, and proprietary details strictly confidential. Neither party shall disclose such information to any third party without prior written consent. This confidentiality obligation survives the termination of this agreement for a period of 2 years.

11. Warranty Period — 60 Days Only: Axoraa provides a 60-day warranty from the formal date of project delivery closure. This warranty is limited exclusively to fixing bugs, defects, or errors present in the originally delivered code that are attributable to Axoraa's development. This warranty explicitly does not cover issues arising from client-side code modifications, server configuration changes, third-party plugin/library updates, hosting migration, unauthorized access, or any alterations made by parties other than Axoraa.

12. Hosting & Uptime Disclaimer: Axoraa is not responsible for website/application downtime, data loss, security breaches, or performance degradation caused by the Client's hosting provider, server misconfigurations, cyber-attacks, DNS issues, or force majeure events. Post-delivery, the Client is solely responsible for choosing, maintaining, and securing their hosting infrastructure and backend systems.

13. Formal Change Request (CR) Process: Any changes to project scope, features, screens, design direction, or functionality after project commencement must be submitted as a formal Change Request (CR) in writing. Each CR will be evaluated for feasibility and impact. A separate quotation for the additional work will be provided within 3 business days. CRs are not guaranteed to be accepted — particularly if they fundamentally alter the project's architecture, technology stack, or agreed timelines.

14. Project Cancellation & Kill Fee: If the Client cancels the project after work has commenced: (a) All payments made up to the point of cancellation are non-refundable. (b) If cancellation occurs mid-milestone, the Client shall pay for the entire current milestone in full. (c) Axoraa will deliver all completed work up to the cancellation date in its current state — no warranties apply to partially completed work.

15. Portfolio & Showcase Rights: Axoraa reserves the right to display the completed project (screenshots, case studies, tech stack details) in its portfolio, website, social media accounts, and marketing materials for promotional purposes. If the Client requires a non-disclosure of the project, this must be communicated and agreed upon in writing before project commencement and may attract an additional confidentiality premium.

16. Governing Law & Dispute Resolution: This agreement shall be governed by and construed in accordance with the laws of India. Any disputes, claims, or controversies arising out of or relating to this quotation or the services rendered shall first be attempted to be resolved through good-faith negotiation within 30 calendar days. If unresolved, the dispute shall be referred to binding arbitration in Bengaluru, Karnataka, India, under the Arbitration and Conciliation Act, 1996. The language of arbitration shall be English.

B I N D I N G A C C E P T A N C E

By signing below, both parties confirm that they have read, understood, and unconditionally agree to all the terms, conditions, scope definitions, payment schedules, and policies outlined in this Project Quotation. This document, once signed by both parties, constitutes a legally binding agreement. This quotation is valid for 30 days from the date of issue.
